**Subject:** Important VirtuAlarm Announcement

**Date:** Friday, April 3, 2026 at 11:52:41 AM Mountain Daylight Time

**From:** VirtuAlarm

**To:** Brock Hokanson

M2M Status UPDATE: As of 7:45 pm (Pacific Time) our Vendor M2M Services lost its output to our servers and all other Central Station servers they provided data signal to. At the same time, they also lost their dealer portal services. While a high number of companies have received some connectivity back as of today around 9:15 am (PST), the portal services are yet to return. This means existing alarm transmitters can communicate, but there can be no adding, deleting or changes made to the existing devices until that part of the service is back on line. VirtuAlarm® is not satisfied with M2M Services inability to resolve network issues in a timely manner. Our Dealers can view any device provided to their Customers on the VirtuAlarm® Dashboard and confirm the the VirtuAlarm® products and services have not missed a beat in several years. With this in mind, ANY or our Dealers are welcome to swap out their M2M devices with VirtuAlarm Devices, FREE of CHARGE. For more details, please contact Ben Price at [ben@virtualarm.com](mailto:ben@virtualarm.com).
